

“The new look and feel of the integrated MiCOURT is a great improvement from the individual “green screen” versions of the other applications. However, with many wonderful improvements, my favorite is the ease with which you can create/save a form and a public register of actions. This functionality will make records transfer, appeals and noticing of cases a much more efficient process in district, probate and circuit courts across the state.”

Carefully Crafted by Staff who *Know* Michigan Courts

MiCOURT is more than a case management system. It is the **only case management system created for Michigan Trial Courts by staff dedicated to the needs of Michigan courts**. It is the only system built to meet the needs of all court jurisdictions and has programming to include flexibility to meet required changes from Michigan legislative or SCAO requirements without additional cost for the court.

The Judicial Information Systems (JIS) Division of the State Court Administrative Office (SCAO) provides technical and automated information system support for the Michigan Supreme Court, SCAO and the trial courts throughout the state.

The MiCOURT Goal: Setting the Standard

MiCOURT is designed with a simple goal in mind: Helping Michigan courts become a national model of efficiency and customer service.

What is MiCOURT?

MiCOURT is a combined case management system for circuit, district and probate courts.

MiCOURT provides each court with details for record keeping, case-flow management, financial management and administrative reporting.

MiCOURT keeps the best features of the previous JIS applications for trial courts and adds dozens of new, time-saving features.

Save time and money while improving service to the public
